-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☐ Responsive to communication(s) filed on 06 June 2006.

DETAILED ACTION

Response to Arguments

1. Applicant's arguments with respect to various objection(s), have been fully considered and are persuasive. The objections have been withdrawn.
2. Applicant's arguments with respect to the rejection(s) of claims 1-16 over 35 USC 112 have been fully considered but they are not persuasive.

Applicant is invited to add the language to the specification that applicant suggest starring on the final paragraph of p. 8 of the amendment. However, this is still some confusion.

It appears that at least part of the confusion here comes from the definition of "cross-over point". According to p. 9 of the specification, lines 20-21, "A cross-over point is the intersection between the last best LOB data entry, and the newly arrived LOB; typically a point where two LOB's cross (a position having a fairly high confidence level)." However, it is not clear how this is so, since in Fig. 9, the cross-over point (PP(0)) appears to be defined by a single LOB. There is no illustration in any drawing how the cross-over point is determined. Is the cross-over point formed by LOB's at first and second times, and then the connecting vector formed from the cross-over point and a LOB at a third time?

3. Applicant's arguments with respect to the rejection(s) of claims 8 over 35 USC 112 have been fully considered and are persuasive. The rejection(s) of these claims have been withdrawn.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

4. Claims 1-15 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention.

It is unclear how applicant's method is carried out. Fig. 6 illustrates the method. Fig. 6 shows the point of view of the DF Set's reference frame. But it is still unclear as to how the cross-over point is determined in the figure.

Allowable Subject Matter

5. Claim(s) 1-15 would be allowable if amended to overcome the rejection(s) under 35 U.S.C. 112, 1st paragraph, set forth in this Office action, without the addition of new matter.

Conclusion

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
